

Announcement

Altequip, Inc. is a woman-owned, small business that provides its Federal and marine customers with a hassle-free alternative for food service equipment. The company's long-standing manufacturer relationships, logistics expertise, and low overhead allow it to provide favorable prices and lead times.

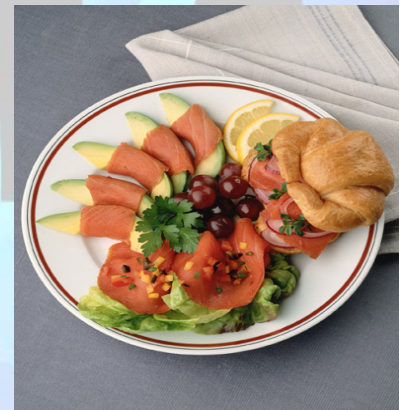

We are able to supply quality products that are specifically engineered for the marine and federal marketplaces. Our familiarity with the special requirements for both markets enables us to provide our customers with valuable information and the latest product offerings.

Our sales team has long standing relationships through Peter Gerard Associates. The same team is ready to work with our customers. Altequip not only has the strength of experience and trusted resources but also offers our customers the freedom to choose their supplier. Customer satisfaction is our primary concern.

Please send requests for additional information to Altequip, Inc. at the following address:
